

Responsible Sourcing - Field to Fork Policy

Overview

Here at Greggs, it is our duty to stand for more than just profit. We've always been committed to doing the right thing and having a positive impact on people's lives and in 2021, we launched The Greggs Pledge which is all about how we can do more to help people, protect the planet, and work together with our partners to change the world for the better.

When it comes to sourcing the ingredients that we need to make our products, or the goods and services that enable us to run our business, 'sourcing sustainably' means taking care that they are produced and delivered responsibly.

Our values, commit us to being enthusiastic, open, honest and treating people with consideration and respect and we live these through all of our people and operations.

As part of this, we want to make our key principles, across a number of areas, clear and accessible to all so everyone can appreciate what we stand for

Scope

This policy applies to produce for use in our own brand products. It excludes factored goods sold under a supplier brand (e.g. branded soft drinks and crisps). Greggs policy is applicable from the field to point of customer purchase.

Produce is defined as:

- Fruit and Vegetables (except those which are dried or heat treated)

And

- Products sold directly under the Greggs brand (e.g. in packaging branded Greggs)

Key Principles

Greggs is committed to developing and embedding practicable 'Field to Fork' standards which are consistent with Greggs' Values and provide the framework of responsible, ethical and sustainable standards across the business. Greggs is a responsible company and strives to ensure that the impacts on the environment its suppliers and growers are considered within its operation.

Greggs will only purchase from Suppliers who source produce from farms accredited with the following produce/farm assurance schemes:

- Red Tractor

TITLE: Responsible Sourcing - Field to Fork Policy				
Issue No. 2	Dated: 23/02/22	Cancels Issue No. 01	Dated: 12/08/20	Page 1 of 2

- GLOBAL G.A.P. (Good Agricultural Practice)
- Vegaplan

Any Suppliers using packing houses or sourcing produce from manufacturing sites must ensure that they are accredited to the BRC Global Standards for Food Safety as well as the farm assurance standards stated above.

Governance

These principles are included within all of our relevant internal processes.

We will review the principles and adherence to them on an annual basis.

Signatory
